

Both fun and instructive, a collection of leaves on the wall. To make it easy to change your display without damaging the leaves, you stick them to the wall with washi tape. Do you want to remember which tree they belong to? Use your best handwriting to write the names of the trees on pieces of paper and tape them next to the leaves.

#### Styling idea

Create a beautiful collage on your wall by combining the leaves with your favourite drawings and other pieces of art. Who would not want to wake up to such a wonderful view every morning?
